

# ALTERNATIVE INTERVAL PORTFOLIOS

## OBJECTIVE

Asteria Wealth understands that alternative investments aren't for everyone. Alts can sometimes have high minimums or a lack of liquidity that some investors need. With our Alternative Models, many of these barriers are eliminated or reduced, making non-correlated investing more accessible to a greater number of investors.

## REDEMPTION SCHEDULE

	Q1	Q2	Q3	Q4
TIPWX	02/08/2022	05/09/2022	08/08/2022	11/07/2022

LCSIX	Daily	Daily	Daily	Daily
FKLZX	Daily	Daily	Daily	Daily

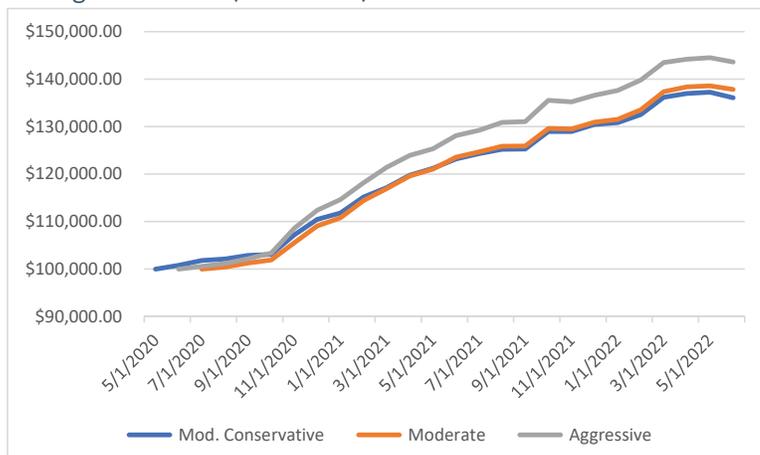

## PERFORMANCE & STATISTICS

(Percent as of 6/30/2022)

		YTD	1-Year	Since Inception	Yield
Moderate Conservative	Gross	4.52	11.00	15.80	2.84%
	Net	4.28	10.47	15.27	
Moderate	Gross	5.51	11.02	17.93	2.61%
	Net	5.26	10.54	17.40	
Aggressive	Gross	5.37	12.62	19.52	2.22%
	Net	5.04	18.18	18.97	

## GROWTH OF \$100,000 SINCE INCEPTION

Ending 6/30/2022 (net of fees)

## PORTFOLIO PROFILE

### RISK LEVEL

**Moderate Conservative:** A lower concentration of private equity and the addition of a Long/Short Credit Fund combine to create a projected lower risk allocation for your more conservative clients.

**Moderate:** With the removal of the fixed income allocation and a greater exposure to private equity, this model provides a solution for clients looking for a greater opportunity for capital appreciation.

**Aggressive:** A reduction in real estate, commodity, and hedge strategies combined with a higher allocation in private equity places this model in a higher risk solution for clients.

### PROCESS

The Quarterly Liquidity Models contain a combination of mutual funds with daily liquidity and interval funds with quarterly liquidity. The interval fund structure allows the portfolio manager to invest in illiquid assets such as real estate and private equity. Each interval fund has their own redemption schedule, so liquidation of these models by the client will result in a delay of when proceeds will be available.

### OPERATIONS

**Inception Date:** 11/1/2019

**Manager:** Daniel Wildermuth

**Min. Inv.** \$20,000

**Contact:** Adam Smith

# ASTERIA WEALTH ALTERNATIVE INTERVAL PORTFOLIOS

The performance data quoted represents past performance. Past performance is not indicative of future results, and there can be no assurance, and clients should not assume, that future performance of any Asteria Wealth managed portfolios will be comparable to their past performance. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. Investing involves risk including possible loss of principal. Current performance may be lower or higher than the performance data cited.

The composite includes taxable and nontaxable, discretionary and nondiscretionary portfolios within wrapped or unwrapped accounts. The performance information presented has not been audited or verified by an independent accounting firm. The composite figures illustrated represent the returns only for the time periods indicated and reflect the reinvestment of dividends, interest and capital gains. Performance is time-weighted total return calculated quarterly. Performance data is shown both gross as well as net of all transaction, management, and custodial fees. The advisory fees used in the calculations are equal to the highest advisory fee charged to any client subscribing to the portfolios. From inception, the maximum fees possible were 0.48% annually, redeemed 0.12% quarterly, in advance, based upon asset value as measured at the previous quarter-end. Actual advisory fees varied among clients in Asteria Wealth. Asteria Wealth's fee schedules are available in Form ADV, Part 2 or upon request.

Asteria Wealth customizes some portfolios for clients according to various characteristics such as tax sensitivity, tax requirements, legacy position inclusion, stock ownership restrictions, sector restrictions, and stock substitutions. Furthermore, we may alter or customize the construction, implementation and ongoing holdings of portfolios depending upon unique or changing client, economic, investment vehicle or market circumstances.

Actual client results are also impacted by start and end dates, withdrawals, additional deposits, and any charges imposed by the investment custodian, which may materially affect client performance returns. In addition, Unified Managed Accounts (UMA) are not traded by Asteria Wealth, which may result in differences in trading style, efficiency, and timing. Therefore, your return may be materially

different from that of other Asteria Wealth clients with the same investment objective and any comparative benchmark provided.

Asset allocation and diversification strategies do not protect against market risk or loss of principal. Neither do they assure a profit nor do they protect against losses in declining markets. Investments in managed portfolios have additional management fees and expose the investor to the risks inherent within the portfolio and the specific risks of the underlying securities directly proportionate to their allocation in the portfolio. Investing involves risk, including the loss of principal. Investment returns, particularly over shorter time periods, are highly dependent on trends in the various investment markets. Investors should consider the investment objectives, risks, charges and expenses of managed portfolios carefully before investing. There is no assurance that any investment or strategy will achieve its investment objective, and the information provided is not intended to be a complete analysis of every material fact respecting any strategy. An investor's actual results may have varied.

**For current month-end performance figures, please contact Adam Smith at (678) 506-3200.**

Asteria Wealth is an independent, privately owned investment management firm registered with the Securities and Exchange Commission. Asteria Wealth offers the management of separately managed accounts comprised of individual securities and asset allocation exchange traded fund portfolios to meet various client investment objectives. Asteria Wealth has been registered as an investment advisor since September 2021. Prior to the formation of Asteria Wealth, these and additional models and investment styles were employed by the same managers at Kalos Management, a registered investment advisor since January 2006. Registration as an investment adviser does not imply a certain level of skill or training. Asteria Wealth changed its name from Wildermuth Asset Management in September of 2021.

**Benchmark:** These models use a 60/40 split of the S&P 500 and the Barclays U.S. Aggregate Bond. The S&P 500 Index is a capitalization-weighted unmanaged index of 500 widely traded stocks, created by Standard & Poor's, and considered to represent the performance of the US stock market in general. S&P 500™ is a registered trademark of the McGraw-Hill Companies, Inc. Performance information for the S&P 500 Index is for illustrative purposes only. The Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs,) ABS, and CMBS. This index may or not be the most representative benchmark index of a particular strategy. The index presented is a general proxy which individually or in combination may not be relevant to a specific model. It should not be assumed that your account holdings correspond directly to any comparative index. Indices are not investments, are unmanaged and do not incur fees or expenses. It is not possible to invest in the index itself.
